## SUMMARY

---

Motivated and detail-oriented Frontend Engineer skilled in React.js, Next.js, and React Native. Experienced in creating responsive, user-friendly web and mobile applications with a focus on performance and design. Currently interning at COL Thinkspace, contributing to UI enhancements, feature integration, and code optimization across multiple live projects. Passionate about learning new technologies and building innovative digital experiences.

## OBJECTIVE

---

To apply my creativity and technical skills as a Frontend Engineer to build engaging, user-friendly, and responsive web and mobile applications while contributing effectively to the success of team projects.

## INTERNSHIP EXPERIENCE

---

### Frontend Engineer Intern - COL Thinkspace

Baisakh 2082 BS – Present

- Working as part of a collaborative frontend team on live production-level applications.
- Contributed to BIXI Life App - enhanced branding-level UI, refactored code, and implemented a new Nutrition Hub feature that allows users to track food intake and nutritional data such as proteins, calories, and carbs.
- Worked on BIXI Partner App, improving UI components, adding new features, and ensuring design consistency across Android and iOS platforms.
- Developed and maintained Nirvana Creator Website, focusing on error handling, API integration, page creation, and overall UI refinement.
- Currently contributing to the Nirvana User App, focusing on advanced React Native and API integration techniques.

## PERSONAL PROJECTS

---

### Personal Portfolio (HTML/CSS/JavaScript)

- Developed a personal portfolio website with animations and transitions to showcase skills and projects.

### Laghubitta News Website (React.js)

- Built a dynamic news site with category-wise browsing and real-time API updates.

### Banking News Website (Next.js)

- Designed and developed a dynamic banking news website using Next.js and Bootstrap.

### Laundry Website (Next.js)

- Developed a visually engaging laundry service website focusing on routing and smooth user experience.

## EDUCATION

---

- Bachelor of Information Technology (Running)
- +2 (Science) - Passed in 2080 BS

## TECHNICAL SKILLS

---

- Languages: HTML5, CSS3, JavaScript, TypeScript
- Frameworks/Libraries: React.js, Next.js, React Native, Bootstrap, Tailwind CSS, shadcn/ui
- Version Control: Git, GitHub
- Other: Experienced in developing pixel-perfect, responsive designs with modern and creative approaches.

## SOFT SKILLS

---

- Creative and user-centric mindset
- Strong problem-solving and analytical thinking
- Team collaboration and communication
- Dedication and adaptability

## CERTIFICATIONS

---

- Web Designer — Broadway Infosys (2025)

## ADDITIONAL INFORMATION

---

- **Languages:**
  - Nepali
  - English
  - Hindi
- **Activities:** Participated in College Frontend Fest, where the team developed a well-designed static Laundry Website. Took part in IT Fest, collaborating with teammates to build a fully functional Engineering Consultant Website.
